

## **The 23<sup>rd</sup> India International Seafood Show 2023 Kolkata, West Bengal, India.**

(February 15-17, 2023)

The Marine Products Export Development Authority(MPEDA) in association with the Seafood Exporters Association of India is organizing the 23rd edition of India International Seafood Show(IISS-2023), a biennial event, at Biswa Bangla Mela Prangan, Kolkata, West Bengal from 15th - 17th February, 2023.

India is one of the leading exporters of seafood to the global market, and currently exporting our fish products to 123 countries. During the last financial year, the country exported seafood worth US\$ 7.76 billion, a record achievement with 30 percent growth over the previous year.

IISS showcases the latest advancements in the Indian seafood industry to international buyers. The show is a platform for demonstrating innovative technologies and exhibiting the latest developments in the seafood industry. Due to the opportunities for discussion and exchange of ideas, the show has attracted seafood importers, processors, exporters, equipment manufacturers, and input suppliers worldwide. Further, the technical sessions involving scientists, experts, and other stakeholders focus on topics relevant to developing these sectors.

IISS 2023 will also be hosting an international Buyer Seller Meet (IBSM) with the participation of buyers from significant seafood-importing countries. A country-specific pavilion will be set up in the show. Further, IISS also invites sponsors for better visibility of their products/services on a global stage. Details are available on the event website – [www.indianseafoodexpo.com](http://www.indianseafoodexpo.com). E-brochures of IISS 2023 is attached herewith for your information.
