SHELL SCHEME SQM

Area inside the halls with a minimum display of 12 SQM in the wall sector, and 32 SQM in the central sector. Its structure is formed by two side walls and one in the back.

The stand is provided by the Organizing Committee.

SPACE ONLY SQM

Area specially designed for those exhibitors that want to carry out their architectural projects.

This space is located mainly in the central area of halls, and it allows exhibitors to add a second floor, as long as they already have a minimum 100 SQM base surface. This second floor can be used only as a meeting room and/or lounge.

SPACE PAVILION STAND

The pavilion is specially designed for local and international private companies and state-owned organizations to display and promote their action areas in different matters related to space technology.

This pavilion welcomes space agencies, observation and telecommunication satellite manufacturers, remote sensing developers as well as other professionals.

DRONES (RPA) STAND

Stand specially designed to promote the evolution of this growing market around the world, where new developments and multiple applications appear every day to meet the needs of civil and military users.

FIDAE offers a professional and welcoming environment for the exhibition of drone prototypes and future projects.

CYBERSECURITY STAND

Cybersecurity is a field born along with the creation of the Information and Communications Technology, but that nowadays is becoming more important due to the need to protect critical data and information, which is under constant threat of new technological developments and permanent attacks executed by cybercriminals.

As a result, FIDAE created a new product specially dedicated to promoting the development of this growing market with several development areas and applications.

CHALETS

This facility allows you to hold your business meetings and/ or receptions in an exclusive area with a privileged view of the flight demonstration area and runway.

The chalets have reception halls, lounge, closet, kitchen and restroom, a terrace, two exclusive parking spaces, air conditioning, wiring for phone, fax, or internet connection, and it can be rented in pairs, thus duplicating its surface.

For additional product information, contact your area executive

OUTDOOR SQM

Exhibition area located in the hall perimeter that faces the aircraft display apron and hall sides. which will be used to display at a low price, vehicles, equipment, and in general, any products other than aircraft.

Any extra product required, such as electricity for your stand, will be at the exhibitor's expense.

Likewise, any stand fitting project must be informed to the Infrastructure Department of FIDAE for its approval.

AIRCRAFT DISPLAY PARK

The fair offers you a wide area to display different aircraft in a privileged sector surrounded by the fair's halls and chalets.

When renting this space, an information panel is included with the aircraft standard data (if requested) as well as trade day invitations and three (3) badges for the aircraft's pilots and/or crew, plus parking spaces according to the rental category.

In addition, FIDAE will maximize your visibility by offering advertisement at a low price on the fences surrounding your aircraft.
